

An innovative 1 Watt, two channel valve combo, with ISF, MP3/Line In and reverb.

Specification

- Innovative 1 Watt valve combo
- 1 x ECC83 and 1 x ECC82
- Unique push-pull power amp design
- Two channels
- 8" speaker
- Patent-applied-for Infinite Shape Feature (ISF)
- Speaker emulated output, stereo MP3 / Line input
- External speaker output
- Reverb

Emulated output and headphones
Stereo sound via headphones or Y-lead

MP3 / line input
Stereo input great for practising

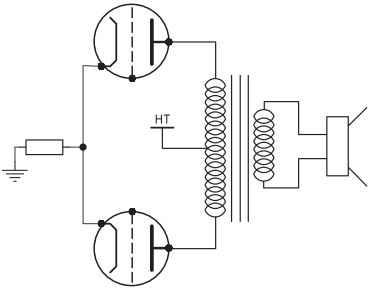

USA to UK in seconds

ISF (Infinite Shape Feature)

Unique patent-applied-for Infinite Shape Feature (ISF) allows access to infinite new sounds.

Push-Pull

The HT-1 power amplifier is a low powered push-pull design which produces the crunch and break-up characteristics of a traditional 100W output stage, but at a much lower volume. This is achieved by the use of an ECC82 dual triode valve in push-pull configuration producing 1 Watt output, which is rich in valve harmonics and compression, sounding full and toneful even at the lowest volume level.
